

Reflective Trims

A range of high specification and decorative reflective trims.

Viz Reflectives offers a range of reflective trims for garment decoration and embellishment. This includes reflective piping, coloured tapes, encapsulated tapes and twin trim products.

Also available is a range of reflective PU and PVC products designed for use in footwear.

VizLite™ 091 Coloured Trim

For use in non EN471 safety garments and for a decorative reflective effect in garments and accessories, **VizLite™ 091** coloured trims are available in 5 colours and various widths up to 1 metre.

Construction

VizLite™ 091 is a coloured reflective stitch-on tape. The light-reflecting layer of this tape consists of coloured, half-aluminised **mbeads™**. The light reflected is white – regardless of the colour of the tape. The substrate layer is 70% Polyester 30% Cotton.

Wash Performance

VizLite™ 091 is designed for 25 wash cycles at 40°C.

Reflectivity Levels

Specifically designed for use on non-compliant garments (i.e. not complying to international standards such as EN471), **VizLite™ 091** tapes offer good reflectivity levels of up to 30 cd/lux/sqm.

Colour Options

White, Red, Blue, Yellow and Black.

Width Options

Stocks held in 2" (50.8 mm) and any widths can be pre ordered up to 1 metre subject to volume.

Packaging

Product	1 x Roll	1 x Carton	Carton Dimensions	Weight
